

All asbestos and tyres must be handled in accordance with NSW Work Cover and EPA requirements.

NOTIFICATION

This application form must be completed and returned to the landfill staff no later than 48 hours prior dispose. All deliveries of **asbestos over 10sqm or 100 kilos or waste tyres in excess of 20 tyres or 200 kilos** must be tracked by QR2id codes by visiting wastelocate.epa.nsw.gov.au

DELIVERY

Times: Deliveries will only be accepted on Tuesdays and Fridays between 8.00am and 4.00pm, applicants will be advised of delivery day. **All vehicles must access via the weighbridge.**

Packaging of asbestos: All asbestos must be wrapped in accordance with the requirements set below:

Labelling: All asbestos must be clearly labelled **"ASBESTOS"**

Unloading:

- Tipping of asbestos load is strictly not permitted. Please follow waste facility staff directions.
- For larger amount of asbestos unloading must be carried out with equipment supplied by the disposer. Strapping to timber pallets is acceptable. The object is to ensure the containment of the asbestos in its entirety.

PACKAGING REQUIREMENTS

Bonded (Sheet Asbestos): Bonded asbestos must wet down, wrapped in builders plastic and taped.

Friable (powder, flagging, etc)

- Friable asbestos waste must be in double (2) sealed heavy-duty 0.2mm (minimum thickness) polythene bags that are no more than 1200 mm long and 900 mm wide weighting no greater than 20kg.
- The bags must be twisted tightly, folded over and the neck secured in the folded position with adhesive tape.

Asbestos Contaminated soil: Contaminated soil must be bagged in 20kg bags and wire tied or zipped locked.

Classes of Asbestos

Class 1 Asbestos	Friable / Particle / Burnt	Cladding off pipes, ceiling insulation (excluding pink batts)
Class 2 Asbestos	Bonded / Sheeting	Wall sheeting, corrugated roofing
